**1 PREPARE YOUR HOME & SUPPLIES WELL IN ADVANCE**

- Trim branches and cut all dead or weak branches on trees.
- Check your home and auto insurance to confirm that policies are valid and coverage is appropriate.
- Protect your windows by using permanent shutters or plywood panels.
- Store valuables and important papers in a water-proof container at the highest level of your home.
- Know your Emergency Shelter location.

**BEFORE**

- Listen to your local radio or television for hurricane progress reports and official instructions.
- Bring indoors all outdoor objects and anchor objects that cannot be brought inside including antennas and satellite dishes.
- Check your supplies and medication.
- Store commercially bottled for drinking, as well as water in sealed plastic containers for other hygienic purposes.
- Fill up your gas tank.
- If you need to evacuate your home, lock it securely and go to the nearest shelter before the hurricane strikes. Do not go outside during a hurricane.
- Take blankets, sleeping bags and other emergency supplies to the shelter.
- Turn refrigerator and freezer to coldest settings. Open only when absolutely necessary and close quickly.
- Secure information or tools you will require for your job after the storm.

**DURING**

- Listen constantly to your local radio or television for hurricane progress reports and official instructions.
- Stay inside away from windows, skylights, and glass doors.
- Keep a supply of flashlights and extra batteries handy. Avoid open flames, such as candles and kerosene lamps, as a source of light.
- Electricity and water are usually cut off during this period, to prevent damage when the power is turned on unplug all appliances.
- Turn off your water, gas and electricity at the main switches or valves.

**AFTER**

- Assist in community recovery efforts
- Watch out for washed out roads, flooding, contaminated water, gas leaks, fire, broken glass and damaged electrical wiring.
- Seek medical attention for injured persons.
- Watch out for secondary hazards such as fire, flooding, etc.
- Clean up debris and effect temporary repairs.
- Protect yourself from mosquitoes, flies and other pests that may increase in your area after the storm.
- Do a damage assessment and co-operate with Damage Assessors.
- Avoid sightseeing.

**HURRICANE AND TROPICAL STORM WATCHES** will be issued when tropical Storm/Hurricane conditions are possible along the coast within 48 hours.

**HURRICANE AND TROPICAL STORM WARNINGS** will be issued when Hurricane/Storm conditions are expected within 36 hours.
